Professional Summary

Dedicated Frontend Engineer and Computer Engineering graduate from Ahmadu Bello University. Proficient in building responsive, high-performance web applications using React, JavaScript and Tailwind CSS. Proven collaborator in agile environments using Git/GitHub for version control. Leveraging a unique background in R&D and Sustainable Development Goals (SDGs) via Enactus to drive socially-conscious, innovative technical solutions. Committed to optimizing user experience and brand growth through clean, scalable code.

Professional Experience

Research & Development Unit Member, Enactus ABU 📄	01/2025 – 10/2025 Zaria, Kaduna State
- Served in the Research & Development (R&D) Unit, spearheading the experimentation and prototyping of sustainable products designed to address specific UN Sustainable Development Goals (SDGs) within local communities. - Engineered income-generating solutions by analyzing market needs and technical feasibility, successfully bridging the gap between social impact and economic viability to create job opportunities for the unemployed.	
Intern, HNG Internship 📄	10/2025 – 12/2025 Nigeria
Collaborated in a high-pressure, agile environment to build and scale user-facing features, successfully advancing through 5 rigorous stages of technical assessments and project deliveries.	
Intern, TIIDELab Initiative 📄	06/2024 – 12/2024 FCT Abuja
- Co-developed a web-app called "Medlorix", a smart healthcare companion app, using React, JavaScript and Python, aimed at improving healthcare accessibility across Africa. - Integrated AI-powered diagnostic tools and symptom checkers into web applications, leveraging Python to provide real-time health insights for users. - Applied Lean Canvas and Product Development frameworks to refine business logic, focusing on problem identification and scalable revenue streams for tech solutions.	

Education

Bachelor of Engineering. Computer Engineering, Ahmadu Bello University 📄	2019 – 2025 Zaria, Kaduna
Second Class Honors (Upper Division)	
SSCE, Police Secondary School	2014 – 2017 Minna, Niger State
BECE, Command Secondary School	2011 – 2014 Jos, Plateau

Skills

Web Development — Proficient

- HTML5 & CSS | Tailwind CSS
- JavaScript & TypeScript
- React
- Git | GitHub
- Figma & Canva

Soft Skills — Proficient

- Communication
- Collaboration
- Problem Solving
- Leadership
- Presentation

Languages

English Language — Fluent

Hausa — Conversational

Projects

Innovate-X 2026

- Developed an African-centric crowdsourcing platform using React and Tailwind CSS, featuring secure Firebase & Google Auth for user-authentication and database.
- Engineered seamless data entry workflows by integrating Formik and Yup for complex form validation and real time project requirement tracking.

PlayArena 2026

- Developed a global esports aggregator with React, Tailwind CSS and Firebase, featuring real-time tournament discovery and dynamic data filtering.
- Streamlined registration workflows using Google Auth and Formik/Yup for secure, validated user participation across the platform.

QuickSumm web app 2024

- Architected a productivity web app with Gemini AI API integration to deliver automated text summarization and intelligent content generation.
- Developed custom file-processing logic for seamless document conversion (PDF/ Word/TXT) and real-time word counting.

Medlorix web app 2024

- Translated Figma designs into a mobile-first, responsive healthcare interface with clinic search and AI medical bot integration.
- Integrated EmailJS to automate user engagement and lead generation through a robust, functional subscription system.
